

APPENDIX B

KuiSCIMA Annotation Remarks

It is to be noted that the *suzipu* characters forming a pair-character notation can either be top-down or left-right compositions, with some combinations appearing in both forms. In this appendix, the spatial arrangement follows the respective edition as closely as possible.

B.1 Symbolic Corpus

If not stated otherwise, the following remarks only apply to the normalized edition:

In this *jianzipu* piece, the 27th notation of the symbolic edition in the harmonics sections is annotated as plain *Cuo Erxian Erxian* 撮二弦二弦, even though the sun component of 撮 is missing.

In this piece, there are four occurrences of the pitch *Taicu Qing* 太簇清: the 26th character “兮”, the 28th character “行”, the 30th character “詩”, and the 57th character “予”. All these are replaced with *Dalü Qing* 大呂清 to be in accordance with the mode.
